

Video Everywhere

Original Launch Date: November 28, 2012

Requirements: Service Pack 10 or above

About Video Everywhere

Video Everywhere is a feature of the Content Editor. Once installed and activated, you will see a new icon in the Content Editor that accesses your webcam. The feature provides the ability for instructors and students to:

- Record a video on the fly using a webcam and have it seamlessly embedded in course materials, interactions, and feedback through the content editor.
- Reuse previously recorded videos by choosing from one's own "library" of videos.
